Enrichment Online
Virtual Learning for grades 7 & 8 and 9 through 12
Learn like a Queen’s University student with courses delivered in Queen’s dedicated online learning management system, onQ. Designed to inspire and challenge independent learners, students will complete daily modules and activities at their own pace that inspire and challenge them. They will also have the opportunity to join at least two live sessions to interact and meet with their instructor and fellow peers.

Program: Virtual
Tuition: $199.00
Grades: 7 - 12 (Middle & High School)

For full program information and course selections, visit: esu.queensu.ca/programs/online

Engineering Innovation
Design and Pitch your own mobile application to better the world! Learn and apply the Design Thinking method on teams and learn more about how Innovation and Change is shaping the world and Queen’s University.

Engineering Innovation is a partnership program between Queen’s Engineering Connections, the Dunin-Deshpande Innovation Centre and Enrichment Studies Unit.

Program: Virtual
Session: Winter: April 12 - 16, 2021
Tuition: $395.00
Grades: 9 - 12 (High School)

For full program information, visit: esu.queensu.ca/programs/marchbreak
